

NOTICE OF CONSTRUCTION WORKS

Various streets in Pinelands

Transport and Urban Development Authority (TDA) would like to advise residents and road-users in the Pinelands area of works on residential roads located between Forest Drive in the southeast, Avonduur Road in the northeast, and East Way / Francis Road in the northwest.

Work is planned to start on 30 January and end on 28 February 2018, weather permitting.

Residents and commuters who make use of residential roads within this area are advised that:

- Traffic moving in both directions will be affected
- At least one lane per direction will always be open to traffic for the duration of the work
- Traffic will be regulated by means of flagmen and stop/go control systems
- Work is scheduled to be carried out from Mondays to Saturdays between 08:30 and 16:30
- Vehicles may be parked in the demarcated area provided that they are removed before 08:30 in the morning
- Access to driveways during the roadworks will be limited but the contractor will endeavour to limit these occurrences as much as possible
- Appropriate signage will be in place and road-users are requested to adhere to the signage limitations displayed over this period
- Although traffic flow will be impeded, residents will be granted local access to their properties as soon as the new surface treatment has dried

Due to the expected congestion in the area, TDA recommends that commuters consider making use of alternative routes.

TDA thanks you for your patience.
